### *Abstract*

The history of Crop Circle research shows that **Crop Circle** is considered as a sizeable pattern created by the flattening of a crop such as Wheat, Barley, rye, logos, Discs, etc. The crop circles are substantially increased throughout the world and so far about nearly 10,000 cases of crop circles were reported by many countries till today.

There is a mystery still exists among Scientists, Anthropologists the existence of crop circle is **natural?** (or) **Supernatural?** (or) **human made?** Many Scientists speculate that Crop Circles are almost entirely **Man-Made** with a few exceptions possible due to **Meteorological** or other phenomena.

The Crop Circle researchers from various countries proposed so many **theories** about its philosophy of its existence such as related to Agricultural crops, **Missing link** about life origin, Anonymous **Alien** message, etc.

It is speculated by the Author that **Crop Circles formations** shall be considered as Prehistoric scientific language in **Code Form**. Each Circle shall be considered as a **Main logic** element which consists of thousands of **sublogic** programmes (Alogarithm). The Prehistoric **CROPS CIRCLES LOGICS** might have been adopted by the **Tamil based Indians** while lived in **MARS Planet** in prehistoric time in space applications for controlling and regulating the **planetary motions in the solar system**.

It is speculated that the philosophy modern Tamil Culture **KOLAM** might have been derived from the philosophy of Prehistoric crop circle culture. Kolam shall mean a **Web like Art** which conveys different meaning in the Art and Science of human life under environmental conditions. The crop circle culture shall be considered as the remote controlling of various planets from **MARS Planet** under different climatic and environmental conditions.

### **Key Words:**

Prehistoric Scientific Logic, Logos, Prehistoric Language in code form, Electromagenetic disc, Remote Control of Planets through Electric, Magnetic field interaction.

## *Foreword*

In modern time many languages such as Mayan Codex, Morse Code, Binary Code various logic gates utilized in computer system are considered as advanced scientific languages. It is focused that the Crop Circles discovered in many part of the world shall be considered as the prehistoric advanced electromagnetic disc utilized for remote communication with interaction of electric and magnetic field for controlling various planets in the solar system. The modern advanced communication devices such as CD, DVD, SIM Card of mobile system, Various software systems utilized in computers might be derived from the philosophy of prehistoric **Crop Circles**.

## *Introduction*

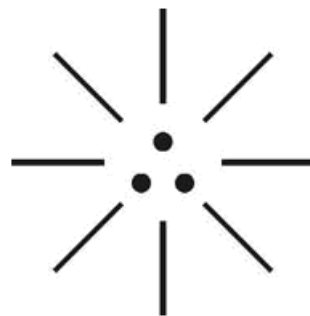

The Prehistoric language shall be considered as concerned with existence of Prehistoric human populations. Human Anthropological studies focus that classical languages, scientific languages such as Morse Code, Binary Code, Mayan Grolix Code are developed only in Modern time. If so how advanced civilizations, application of advanced scientific logics are possible in **prehistoric time**? The Modern Scientists themselves could not arrive **conclusions** how complex formation of **Crop Circle** was in existence and what is the philosophy of existence? Only possibility is that Prehistoric human populations might be existing with **advanced civilizations** and might have adopted **advanced scientific logics** in communications.

It is speculated that the Prehistoric populations while lived in **MARS** were expert in astronomical science and advanced communications practiced through **electromagnetic sources**. The prehistoric populations are well

versed in Electromagnetic theory and shall be called as **Superscientists** having more **wisdom**. The philosophy of geometric position of **Sun, Earth, Moon**, in the solar system, shape of universe was already published by the Author in IJSRP, April, 2013 titled as Cosmo Superstar and in IJSER, May, 2013, titled as Superscientist of Climate Control. This article shall be considered as the extended version of previous articles published.

## *Hypothesis*

- i) Crop Circle formations are man-made
- ii) Crop Circle formations are scientific logic used in Astronomical Science applications in Prehistoric time.
- iii) Crop Circles shall be considered as **Electromagnetic discs**. Microprocessor functions comprising thousands of inbuilt called as **Mother Board**.

**(LOGOS)**

The above Tri-Crop Circle shall be considered as prehistoric **BLACK BOX** consists of three fundamental circles comprising of thousands of sub logic programs within each circle. In the above Tri-Crop Circle the right circle shall be considered as the **functional** part of logic, left circle shall be considered as the **structural** part of logic, center circle shall be considered as

**law** part of logic governing specific sequential operations. The above black box Tri-Crop Circle might have derived energy from freely available radiant **Aether energy** in the space.

In medical term the right circle shall be considered as equivalent to **DNA**, the left circle shall be considered as equivalent to **HORMONE**, the center circle shall be considered as equivalent to **RNA**.

In Cosmological term right circle shall be considered as equivalent to **dark matter** consists of proton, neutron, electron, left circle shall be considered as equivalent to **dark energy** consists of photon, electron, proton, the center circle shall be considered as equivalent to **dark law** consists of anti-neutrinos radiation.

In biological term the **domain** of life shall be considered as equivalent to three Crop Circle. The right circle shall be considered equivalent to **EUKARYOTES**, the left circle shall be considered as equivalent to **ARCHAEA**, the center circle shall be considered as equivalent to **BACTERIA**.

In electromagnetic spectrum the three crop circle shall be considered as equivalent to three region of radiation. The right circle shall be considered as **INFRARED radiation**, the left circle shall be considered as **Visible Region**, the center circle shall be considered as **Ultra Violet Region**.

In standard colour theory the three crop circle shall be considered as equivalent to three fundamental colours. Millions of various range of colours shall be considered as species colours within the three fundamental colours. Black and white shall not be considered as colour; Black shall be considered as absolute absorption and white shall be considered as absolute emission. The right circle shall be considered as **Red colour**, the left circle shall be considered as **Green**, and the center circle shall be considered as **Blue**.

In chemical evolution the three crop circle shall be considered as equivalent to three fundamental chemical elements. Thousands of other

elements shall be considered as species elements evolved from three fundamental elements. Hydrogen shall not be considered as element and it shall be considered as **DARK FLAME** and centromere of all chemical elements of universe. The right circle shall be considered as **OZONE**, the left circle shall be considered as **NITROGEN**, the center circle shall be considered as **CARBON**.

In **unified** theory of quantum physics the three crop circle shall be considered as equivalent to three fundamental forces of Cosmo universe. The right circle shall be considered as **Strong Force (EMR)**, the left circle shall be considered as **Light Force**, the center circle shall be considered as **Gravity Force**.

### *Etymology of word Crop Circle*

The origin of English word **Crop** and **Circle** are not clearly known. It is speculated that the English word Crop circle might have been derived from prehistoric **Tamil phonetic**. The word crop might be derived from Tamil phonetic **Kirakam, Kirathi**. The word circle might be derived from Tamil phonetic **Charam, Charakam. Kiraka Charam** controlling of planets in the solar system.

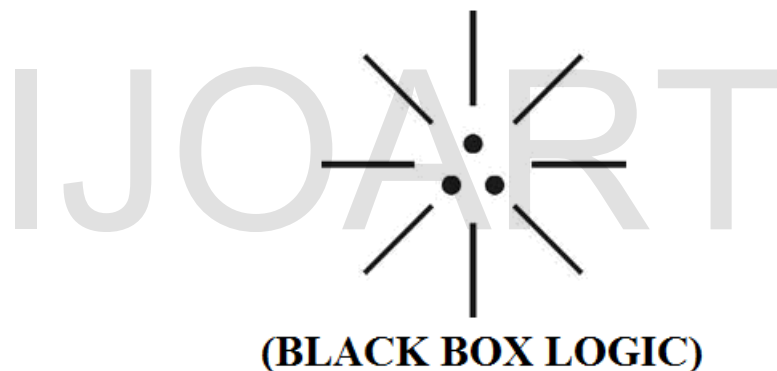

- (a) Kirakam means planet
- (b) Kirathi means web
- (c) Charam means order, sequence
- (d) Charakam means region, area

In prehistoric time the Tamil based Indian lived in MARS shall be considered as **Super Scientist** and well versed in controlling the movement of planets in the solar system due to impact of various climate conditions. The Tamil Kiraka Charam means effective controlling of planets.

## *Hypothetical Definitions*

### **i) What are Crop Circles?**

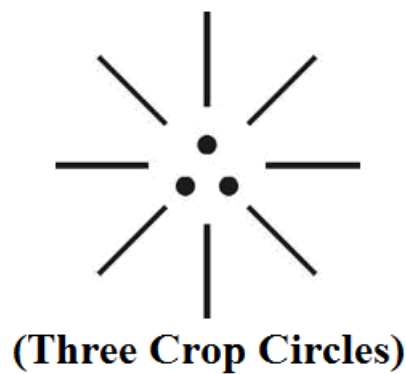

The Crop Circles shall be considered as **logos (i.e.)** each Circle shall be considered as a Main Logo which consists of thousands of **Sublogics** in-built within each logo. The various formations of Crop Circle shall be considered as different logic programmes integrated with **SUPER LOGIC** consists of three **tiny dot**. In fact it is focused that the philosophy of **Circles** are fundamentally derived from fundamental **tiny dot** and Tiny dot shall be considered as the **centromere** of **System Logic** adopted for controlling planetary motion through electromagnetic wave.

### **ii) Prehistoric Alphabet:**

The Crop Circle shall be considered as the prehistoric Electromagnetic alphabet in **Code Form** (i.e.) understanding the language through coded words.

It is focused that the Prehistoric **Tamil based Indian** were expert in Astronomical Science have already formulated the relative position of **Sun, Earth, Moon** in three tiny dot shall be considered as **three crop circles** as follows. It is speculated that the **Mayan** writings (Glyphs) might be derived from Prehistoric **Crop Circles** philosophy.

The right circle shall be considered as **Moon**, left circle shall be considered as **Earth**, center circle shall be considered as **Sun**.

Further it is focused that the three crop circle philosophy was utilized by the prehistoric populations to represent Universe and the meaning of space matters such as **Dark matter, Dark energy, Atom cell**, and various physical, chemical, mathematical properties of space matter, etc.

### iii) **Philosophy of Neutrinos**

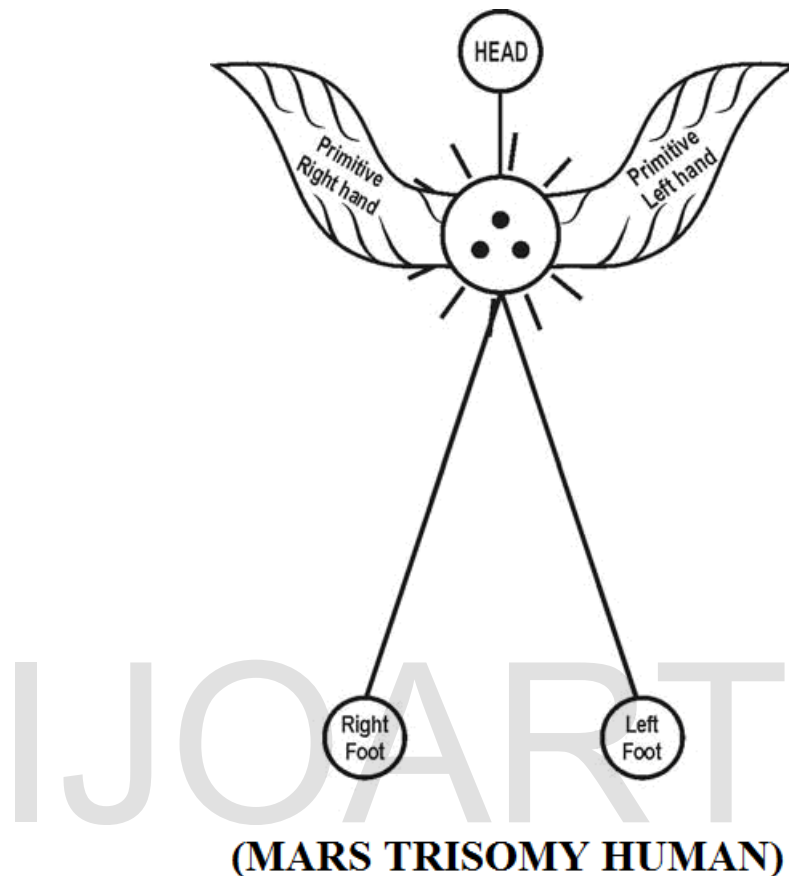

In cosmological science it is focused that the entire universe is considered as evolved from three fundamental Tamil neutrinos **A, K, J**. All other neutrinos existing in the space shall be considered as sub species neutrinos to the fundamental three neutrinos. A-Neutrino shall stands for **Photon**, K-Neutrino shall stands for **Electron**, J-Neutrino shall stands for **Proton**.

### iv) **Philosophy of Tribe**

It is focused that Tribe shall be defined as the human population having only three chromosome lived in MARS with different genetic characteristics with super wisdom. The three crop circle shall be

referred to three chromosome derived one each from photon, electron, proton.

In medical science the occurrence of additional chromosome say 47 or 45 instead of 46 is considered as Trisomy and treated as **syndrome**. It is focused by the author that the occurrence of Trisomy shall not be considered as syndrome and it shall be considered as **genetic reflection** of prehistoric human population live in **MARS**.

## Conclusion

The Origin of Life is still under mystery among Biologists and creationists. In evolutionary science **Darwin Sir** already established that

Human ancestors of Apes lineage. It is speculated that human have **more genetic value** than Apes and the Prehistoric human populations might have lived in **MARS** with different genetic structure having **More Wisdom**. Due to various climatic conditions the prehistoric Mars populations might have been extinct at one stage and new human population might have been started living on the earth with different genetic structure at much later period. It is speculated that the Prehistoric Mars populations might be the **genetic link** to the Earthly populations and the Prehistoric **Crop Circles** used by the Mars populations may be mysterious to the Modern Scientists. The Prehistoric Crop Circles shall be considered as the Mother of Modern Scientific and all Computer Languages.

## *Hypothetical Narration and Case Study*

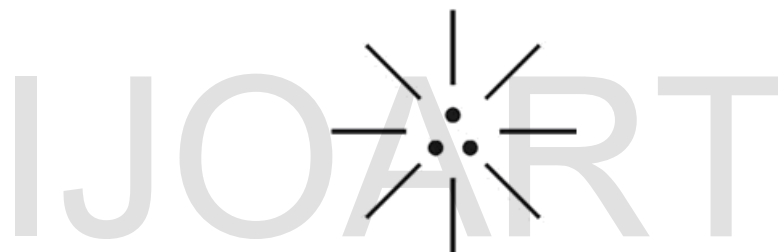

### *a) CROP CIRCLE RELATED TO PLANTS*

From the case study there is an evidence that the international code of botanical nomenclature that the scientific names of plant families have the Latin suffix **aceae** i.e. aster aceae, faba aceae, rosa aceae. Further based on barbury castle crop circle 1991, some researchers believe that the barbury formation was the **rosetta stone** to the understanding of geometric nature of dimension in the **universe**.

It is speculated that the philosophy of crop circle formation may be related to artificial selection of plants from the original plants by modification to **DNA** traits through impact of **electromagnetic radiation** in the cell structure of the plants. As such the prehistoric population might have produced three fundamental crop circles **artificially** such as aster aceae, faba aceae, rosa aceae from the prehistoric natural plant **aceae**.

***b) PHILOSOPHY OF LOGO***

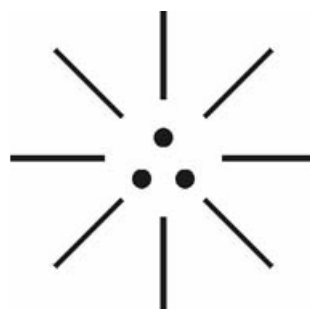

The logo shall be referred to the system of symbol, graphic mark, emblem commonly used by commercial organization to aid and promote public recognition. The etymology of Greek word LOGOS, LOGIC, LOGISTICS might be derived from the word LOGO. The Greek word LOGOS, LOGISTICS, LOGY are referred to the meaning such as skilled in calculation, scientific study etc. It is hypothesized by the author that the prehistoric population when live in MARS are expert in logarithmic function of mathematics and other scientific studies. It is speculated that the prehistoric population might have adopted three tiny dots as **natural logarithm** mathematical symbol with **base three**.

**(Natural Logarithm Symbol  
with base three)**

***c) NATURE IS CREATION? OR EVOLUTION?***

It is hypothesized by the Author that the prehistoric human formulated the whole cosmo universe with **three tiny dot**.

**(Dark Flame)**

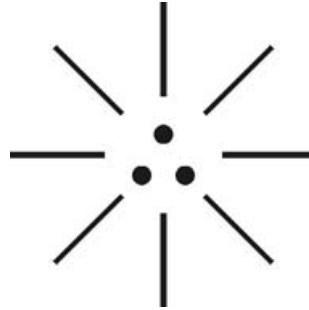

It is focused by the Author that the nature shall be considered as both of **creation** and **evolution**. It is focused that the right dot shall be considered as **Dark matter** (Mind), the left dot shall be considered as Dark Energy (Body). The centre dot shall be considered as Dark Law (Heart). It is focused that the centre dot shall be considered as **creation** and right, left dot shall be considered as **evolution**. Further it is focused that evolution begins with creation. No creation means no evolution. Evolution is just like **transition**. Creation is just like **Dark Flame** in existence.

*d) WHAT IS SOUL?*

Case study shows that the first heart beat in child occurs during 4 to 6<sup>th</sup> week of Trimester. First a **tube like heart** is formed and heart beat begins.

It is hypothesized by the Author every heart of human is linked to Dark Flame of Universe and draws energy from **Aether energy** which is composed of Photon, Electron, Proton displaced by 120° one another. The **Aether Energy** associated with every human heart shall be considered as **Soul** of human. The etymology of word Soul might be derived from Prehistoric Tamil Phonetics **Chule**. Chule shall mean **life**. Further the **Navel** of human shall be considered as **electromagnetic Sensor** which links human heart and another energy through **stem cell** umbilical chord which shall be considered as optic fibre cable.

Further the **Soul** shall be considered as a 3 phase alternating generator source which operates the human heart. The heart shall be considered as a 3 phase motor connected to the generator through electromagnetic sensor **NAVEL**.

(SOUL)

It is focused by the Author that the human soul shall be considered as a **creative product** and human heart, mind, body shall be considered as a evolved product from **Soul**. The growth of child from embryo stage to matured child shall be considered as Natural Logarithmic function with base 3.
